

GEMINI XL

This is the smallest cabinet fitted with our Maxi opening.

The Gemini XL is the big sister to the Gemini. In addition to all the benefits of its little sister it has the Maxi (1942) opening and a super handy space-saving, pull-out rack system. This unique new addition gives a surprising amount of extra storage potential.

Despite its smaller size every inch of space is maximised to ensure that your sewing equipment fits perfectly, providing you with a comfortable workspace.

The Gemini XL features a central sitting position, which allows freedom to access every part of the cabinet from your chair. This sitting position, and the extra depth, gives spacious legroom whilst using even the largest of sewing machines.

This cabinet may be compact, but its capabilities are boundless, making it the ideal choice for those seeking a versatile and efficient sewing solution.

Need a chair?
See pg.30 for
more information

- 1 This unit is able to hold the larger, longer armed sewing machines due to it having the 1942 opening. This means it is able to hold machines such as the Pfaff Icon, Bernina 7 & 8 series, Janome Horizon range amongst others. See page 38 for more information on our insets and inserts.
- 2 Despite its smaller size it has one of the best seating positions for the larger sewing machines.
- 3 Removable transparent door storage bins positioned beneath both of the expansion leaves.
- 4 One inset, cut for your machine, is included with this model.
