

I MAY BE  
SMALL BUT I  
HAVE **BIG**  
IDEAS

The newest addition to the electric range, despite its compact size, offers more workspace where you need it by having a clever rear leaf folding system that doesn't compromise space or its optimised sitting position.

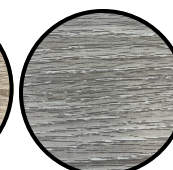

Internally there is a handy cable management system and plenty of removable door storage, including a holster idea for your favourite scissors, all within easy reach from your seat.

## THE GENI-E

Available in:

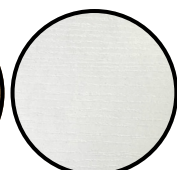

Weathered  
Oak

American  
Grey Oak

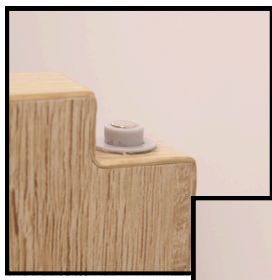

Beech

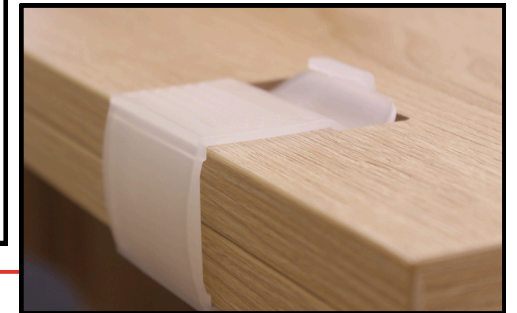

White

The clever new rear leaf is supported by a gate leg which has an adjustable pop-up catch to lock the leg in place.

This new back leaf innovation, which offers support where you most need it, has a handy clip idea to attach the rear leaves together when stored.

- 1 New dual-motor electric lifter offers the ability to program 3 stopping positions of your choice whilst giving you the power to take the heaviest of domestic sewing machines with ease.
- 2 Fitted with our massive GE805 sized opening (for dimensions, see pg.8.)
- 3 Equipped with our new innovative extra rear leaf design, which offers better support for your fabrics behind your machine.
- 4 Lockable door for safety and security, as well as keeping sharp things away from little hands.
- 5 Comes equipped with soft rolling, lockable castors, the GENI-E is solid and still easily moveable.
- 6 Our new foot stop idea, that clips onto the base of your cabinet to create a barrier for your foot control to comfortably sit against and stay in place, is included.
